# KE THE RIGHT CHOICE

FOUR IMPORTANT REASONS TO CHOOSE KE

KE  
ENJOY THE OUTDOORS

## **BAT GROUP:**

Thanks to KE's experience and strong organization, we are a leading company in the field of retractable awnings and stationary products. KE is part of the BAT GROUP, a multinational company which guarantees positive synergies between materials, innovation and choices. KE is always investing in research in order to reach new solutions to improve functionality and elegance.

## **DESIGN:**

The aim of KE designs is to achieve the optimal integration between the architecture and protection needs. Our design department is constantly involved in innovative research to add value and preserve the quality of the outdoor environment.

## **KE PATENTS:**

KE offers innovative, operational and patented techniques. All the KE shading systems come from creative ideas which offer unique advantages in application and durability.

## **LONG-TERM INVESTMENT:**

KE uses only the finest materials available from around the world to produce truly superior additions to your customers' home. Our advanced manufacturing and skilled craftsmanship technologies ensure KE customers will receive the highest quality products possible.

# EXPAND YOUR OUTDOORS...

LIVE THE OUTDOORS!

Gennius Isola 2 is a unique concept in retractable awning systems which can protect you from the wind and rain, block harmful UV rays and keep you cool and comfortable in the brightest sunshine. The Isola 2 combines the beauty of a pergola, the flexibility of a retractable awning, and the warmth and comfort of a room addition.

Create a "retractable room" with optional "zip" drop curtains in the front and on the sides underneath a fixed fabric gable wing. The curtains can operate manually with a gear or be motorized. Put sun-screen mesh in the drop curtains, or use vinyl fabric with crystal-clear windows. Also available with sliding glass screens.

Installation is adaptable to wall and freestanding units.

Complete rain water management with the patented guiderail gaskets, gutter, and downspouts

ISOLA 2

ISOLA 2

---

The Isola 2 is a self-supporting, or freestanding unit. The structure differs from the classic product Gennius for the roof structure, having the guides perfectly positioned horizontally and laterally tilting the sheet to allow the flow of water in gutters around the perimeter. The columns are perfectly square, the eaves and roof system make the Isola 2 extremely compact and aesthetic. With its innovative design, shaped as a cube, the inclination of the cover make it distinct and unique.

The Isola 2 protects you or your guests from wind and rain, it also blocks harmful UV rays, keeping you cool and comfortable in the brightest sunshine. With projections starting at 8' 2" up to 29' 6", provides cover to any part of your outdoor living area.

Blackout fabric, is available in white, sand, ivory, and blocks 100% of damaging and uncomfortable UV light and heat. This blackout fabric prevents shadow lines that appear below from environmental pollution that can settle on the top side.

Wind resistance guaranteed up to class 6 according to UNI EN PR 13561 standards. Isola 2 is not made to withstand the weight of snow.

Accessorize your Isola 2 with: lights, optional zip solar shades, glass screens, and the Somfy® sun, wind, or rain sensor.

Isola 2 perfect patio covers for:

- Golf Courses
- Country Clubs
- Private Dining —  
Improve dining and  
entertainment spaces
- Optional dimmable LED lights
- Projects up to 29' 6"

Perfect for any type of celebration!
