# KE THE RIGHT CHOICE

FOUR IMPORTANT REASONS TO CHOOSE KE

---

## **BAT GROUP:**

Thanks to KE's experience and strong organization, we are a leading company in the field of Retractable Awnings. KE is part of the BAT GROUP, a multinational company which guarantees positive synergies between materials, innovation and choices. KE is always investing in research in order to reach new solutions to improve functionality and elegance.

## **DESIGN:**

The aim of KE designs is to achieve the optimal integration between the architecture and protection needs. Our design department is constantly involved in innovative research to add value and preserve the quality of the outdoor environment.

## **KE PATENTS:**

KE offers innovative, operational and patented techniques. All of the KE shading systems come from creative ideas which offer unique advantages in application and durability.

## **LONG-TERM INVESTMENT:**

KE uses only the finest materials available from around the world to produce truly superior additions to your customers' home. Our advanced manufacturing and skilled craftsmanship technologies ensure KE customers will receive the highest quality products possible.

## **KE ENJOY THE OUTDOORS**

A large outdoor patio with a retractable awning overlooking a golf course. The patio is paved with dark brown tiles and has a black metal railing. A stone pillar with a potted plant sits on the patio. The golf course is visible in the background, featuring green grass, sand traps, and a line of trees under a cloudy sky.

# DISCOVER YOUR WORLD...

LIVE THE OUTDOORS!

Create an eye-catching look for your deck or patio while adding living space for you to enjoy!

Your KE Retractable awning provides high grade UV protection, allowing everyone to stay outdoors longer without concern of the harmful effects of the sun.

From full-featured awnings to affordable entry-level models, the Retractable family of awnings has what you're looking for. Providing on-demand solar protection, Retractable awnings expand your home beyond its walls. With the touch of a button or turn of the crank, these awnings transform your deck, patio or terrace into an attractive and comfortable expanded living space.

**DESIGN AND FUNCTIONALITY ...**

**ADD LIVING SPACE TO YOUR DECK OR PATIO BY  
CREATING THE PERFECT OUTDOOR ENVIRONMENT  
FOR YOU, FAMILY, AND FRIENDS TO ENJOY**

**ELITE PLUS**

An extra living space that everyone will enjoy... transform your deck, patio, or terrace into the best room of the house. Keep your home's traditional appearance by installing a stationary awning or create a more contemporary look with a retractable system.

Maximize your outdoor living space, provide relief from the sun's harmful rays, reduce energy costs and create an elegant expression of your personal taste and style.

Versatile and beautiful... our awnings are custom-crafted and professionally installed to create a cool, natural extension to your home.

Start enjoying the outdoors!

# BELLA PLUS

Full or Semi Cassette design features a complete profile design option that completely encapsulates your awning for total protection from the environment.

The profiles for the front rail, bottom cover, and optional backside offer a variety of choices for the awning design and performance capability. With arm projections available to up to 14'3", this awning also has a direct mounting bracket setup from the mounting torsion bar integrated into the design.

An optional manual or motorized drop valance is available on the full and semi-cassette units.

# REGAL

The Regal is KE's most affordable custom made awning where style meets value. By adding this aesthetically pleasing sun protection, the Regal gracefully compliments the exterior of any home. The simplicity of the design is available in two standard frame colors of white and sand with a custom width up to 23' wide with a maximum projection of 11'2". The customization of this size range and features is very competitive economically in the market without sacrifice on the component design and durability.

# SPACE

A brand new product for 2019, Space is an elegant and modern tension rollup shade system designed to mount with bracket attachment to shade open areas onto pre-existing substructures such as verandas and pergolas.

Easy to install and equipped with a full cassette, the Space is characterized by guiderails that are adjustable on the outside width position (up to 1'8" moving inward). The fabric rollup system is tensioned by gas piston struts with cables for optimal performance on a custom size maximum projection range up to 23' and a maximum 23' width.

**2019 NEW PRODUCT**

# SPACE WALL

A brand new product for 2019, Space is an elegant and modern tension rollup shade system designed to mount with bracket attachment to wall, soffit, or roof applications to shade open areas with supporting leg posts.

Easy to install and equipped with a full cassette, the Space is characterized by guiderails that are adjustable on the outside width position (up to 1' 8" moving inward). The fabric rollup system is tensioned by gas piston struts with cables for optimal performance on a custom size maximum projection range up to 18' and a maximum 23' width.

**2019 NEW PRODUCT**

# PINNACLE ONE

The Pinnacle One tension rollup shade system into a full cassette creates a pergola post setup with direct attachment of the cassette to the building structure to shade open space areas.

With spring/cord technology on fabric tensioning, the maximum width and projection capability is 16' x 16' in a single module. Additional modules can expand the configuration to a maximum overall width of 48' width with dual track guide rails between modules attached to a single shared post column.

Drop screen options can be added the front side of the unit for more protection on low angle sun exposure.

PINNACLE ONE WITHOUT DROP SCREEN

PINNACLE ONE WITH DROP SCREEN

PINNACLE ONE USING 3 BAYS

PINNACLE ONE USING 3 BAYS

# PINNACLE TWO

The Pinnacle Two tension rollup system into a full cassette that can be top mounted on an end user provided sub-structure (pergolas, aluminum or wooden patio covers, lattices, etc.) and includes the same engineering features of the Pinnacle One without the front leg posts for easy mounting to the structure. Variable height and side to side adjustment mounting brackets are available for easier integration onto the structure.

With spring/cord technology on fabric tensioning, the maximum width and projection on the capability is 16' x 16' in a single module. Additional modules can expand the configuration to a maximum overall width of 48' width with dual track guide rails between modules.

An optional wall bracket is available for backside cassette mounting attachment to the building structure when top mounting is not feasible. In this configuration, the front side of the guide rail would need to be attached to the structure with a top mounting bracket.

PINNACLE TWO

PINNACLE TWO

PINNACLE TWO

PINNACLE TWO

# TOPAZ

This cassette retractable drop arm window awning in a cassette is perfect for windows up to 16' wide. The spring loaded arm tension guarantees a taut fabric cover that can be dropped to a 160 degree position just short of a totally vertical application while allowing some light to still transmit in from the open sides of the awning. The sleek design of the front rail fits flush against the cassette housing that contains the fabric roller for a more complete finished and compact appearance when the unit is retracted.

# ONYX

This open roller drop arm window awning has a wider width size range up to 40'. With additional arm placements for support, the unit can cover wider window areas where attachment is possible for maximizing solar protection. The spring loaded arm tension guarantees a taut fabric cover that can be dropped to a 160 degree position just short of a totally vertical application while allowing some light to still transmit in from the open sides of the awning. An optional hood with side covers is available for top protection on the open fabric roller for a beautiful finished appearance.
