

VERTEX TENSION SCREEN SYSTEM

MADE FOR COMFORT

The Vertex Motorized Tension Screen System elevates zip track fabric guidance on horizontal or vertical solar screen shading to a new level. The sleek 5" cassette housing combined with spring/belt tensioning in the zip track rails is practical and stylish while its purpose is functional and essential for enhanced performance on solar screen protection.

The Vertex has great versatility for different applications. Top mounted setup on an existing sub-structure, a wall or soffit mounting attachment to a structure with front post support in open space areas, as a vertical screen in patio openings or windows, and even for interior skylights where a direct inverted installation of the full cassette and tracks is possible.

Multiple fabric selections are available from screen mesh materials to opaque shading fabrics designed to custom size and cover an area of up to 16' in width with a maximum 16' projection. Additional units for more space coverage can be installed side by side with minimal gap, dual track guidance is also available.
